

CareCredit Direct™ makes the financing process easier for your busy practice.

Less time explaining financing. More time caring for patients.

CareCredit Direct software lets patients or clients learn about and apply for financing all on their own in your practice.

Eliminates the need to store paperwork. No need to collect personal financial information or keep signed copies of applications.

- Sensitive information is shared only with CareCredit, and patients or clients receive a direct credit decision
- The application process is private for your patients or clients

Care isn't delayed. No waiting to schedule or receive the care they want or need right away.*

- If approved, the patient or client can use their CareCredit credit card to transact the same day
- Helps remove cost as a barrier for more patients, without more work

Education is on us. We explain the details and fine print so you don't have to.

- Provides a complete explanation of CareCredit and how promotional financing options work
- Patients or clients receive accurate, consistent information and financing disclosures
